# A Centronics Parallel Printer Interface With Graphics For The VIC-20™ and C-64™ Computers

Using this interface with one of the printers listed below will allow your printer to emulate a Commodore printer while still allowing you to use the advanced features built into your printer but not available to owners of Commodore printers. The "Card?/+G" is totally self contained and requires no additional hardware or software.

- No modifications required to your computer, programs or your printer
- Includes all necessary cables and connectors to interface your Commodore computer to any of the fine printers listed below
- Switch or software control of Commodore ASCII to standard ASCII conversion
- Switch or software control of automatic line feed function
- Plugs in the same place as the Commodore printer
- Prints the full Commodore character set (including all Commodore graphics characters, reversed characters and reversed graphics characters)
- Works with the following printers:
  All new Epson MX, RX and FX series
  Star Gemini 10X and Delta 10
  ProWriter, C.Itoh 8510 and NEC 8023
  Okidata 82, 83, 84, 92, 93, and 94
  Seikosha GX-100 and the Gorilla Bannana

## OUR GUARANTEE

For as long as this product is owned by its original owner, CARDCO, Inc. will repair or replace any defective parts or the entire unit if it should become inoperative due to a defect in manufacture or materials, providing the unit is returned to CARDCO, Inc. in undamaged condition with proof of purchase (purchase receipt).

**VIC-20™ and C-64™ are registered trademarks of Commodore International**
